## **WEEMS & PLATH SIGNS EXCLUSIVE MANUFACTURING & DISTRIBUTION AGREEMENT WITH ORCA GREEN MARINE**

***New exclusive worldwide licensing agreement expands Weems & Plath's boating safety product lines with full selection of LED navigation lights for recreational, commercial & military customers***

April 24, 2019, Annapolis, MD — [Weems & Plath](http://www.weems-plath.com), manufacturer of fine nautical & weather instruments since 1928, today announced it has signed a worldwide licensing agreement with RevesOcean Network, LLC, owner of the Orca Green Marine (OGM) brand of LED Navigation Lights to manufacture and distribute the OGM Series of LED navigation lights.

Under the agreement, Weems & Plath will manufacture and distribute OGM's full line of LED navigation lights, including the LX and Q Collections. The announcement of this partnership with RevesOcean Network, LLC launches Weems & Plath's expansion into a new class of lighting in both the LED and navigation lighting categories.

"Weems & Plath is built on the principles of fostering safe boating and creating superior products for life aboard. The addition of the OGM Series of LED Navigation lights aligns directly with this mission," said Weems & Plath President and CEO Mike Flanagan. "Our 90 year history of offering high quality products with impeccable customer service will bring OGM LED Navigation Lights to a broader reach of customers worldwide," added Flanagan.

“For more than 16 years, OGM’s LX Collection of lights has been a durable and reliable product for commercial, recreational and military boaters” said Meghan Matthews, Founder and CEO of Orca Green Marine. “As the first USCG approved LED navigation light in the world, the LX Collection has the longest history of LED navigation lights in the harshest ocean environment, so we are excited to team with Weems & Plath for the next level of growth.”

These remarkable lights are made in the USA and have a lifetime warranty.
